Reviews from Other Campers: 1) The following excerpts are from a campground description found in the "U.S. National Forest Campground Guide" web site (<http://www.forestcamping.com/index.htm>) : "...Campground is located in the Lee Valley Recreation Area. There are two loops - Deer and Bobcat. It is wooded with Ponderosa, Spruce, Douglas Fir and Aspen. The understory is grass and pine needles. Wildlife viewing of deer, elk and turkey is a regular event. The campground is convenient to the Mt. Baldy Wilderness and is about 1.5 miles from the Lee Valley Reservoir. Firewood is available..."

2)The following review is from **About.Com Campground Reviews** web site (<http://camping.about.com/od/campgroundreviews/>): "This campground is at 9300 feet with cool air to escape the desert heat. It's nestled in aspens and pines, and the sites are a nice distance apart. We have been going here for years."
