

Boca Tahoe N. F.

Beautiful View: Reservoir, Mountains and Arid Landscape

Campground is located along the Boca Reservoir with excellent views of the reservoir and mountains. **Best Sites:** Per discussion with campground personnel, because of the open layout of the campground and few trees and low growing vegetation (mostly sagebrush), all sites should have views of the reservoir and/or mountains. **** See notes in the Introduction.**

Reviews from Other Campers: 1) The following excerpts are from a campground description found in the "U.S. National Forest Campground Guide" web site (<http://www.forestcamping.com/index.htm>) : "...The campground, located along the south bank if the Boca Reservoir, has two spurs on ridges overlooking the reservoir. Sagebrush surrounds the campground with a few Jeffrey pine providing some shade, but it is mostly in the open. The campground has a developed dispersed feel. Some of the tent sites are walk-in on a point of land jutting into the reservoir. There is a protected eagle habitat at west end of Boca Reservoir...The parking aprons are dirt, large irregular shape that can accommodate any size RV. The interior road is dirt and rough...Boca Reservoir is 980 acres. Boat ramp is 0.7 miles west of campground..."
