**Reviews from Other Campers:** 1) The following excerpts are from a campground description found in the "U.S. National Forest Campground Guide" web site (<http://www.forestcamping.com/index.htm>) : "...The campground has a "Q" configuration with camp sites on top of the letter having a delightful vista while sites on either side have tower boulders for a backdrop. Magnificent Ponderosa and Sugar pines and other conifers are found throughout the campground. This is a campground for hikers, mountain bikers, bouldering enthusiasts, and anyone looking for quiet and solitude - well worth the challenge of the road to campground. The Black Mountain Lookout Tower is accessed via a trail from campground and offers breathtaking views of the area. The ground cover throughout the campground is pine needles and various size pine cones. Privacy between camp sites is fair..."
