Reviews from Other Campers: **1)** The following review is from **About.Com Campground Reviews** web site (<http://camping.about.com/od/campgroundreviews/>): "This campground combines the best of both worlds, satisfying both my desire to camp at the beach and my husband's longing to camp in the woods. Not your typical beach campground, El Capitan offers the shade and serenity of a wooded area, with many oak and sycamore trees throughout the park. There are beautiful views from the cliff-top campground. Spacious campsites and a gentle beach with tide pools make this the perfect family camping destination..." **2)** The following excerpts of reviews are from **Wildernet.com** ([http:// areas.wildernet.com](http://areas.wildernet.com)) "This campsite is wonderful I have been going here every summer of my life. ... I reccomened watching the sun set at the beach."; "Great campground! Beautiful beach and views! Clean facilities! We just returned home from our first vacation at this spot, and here I am online planning our next visit!"; "Beautiful place.Family goes every year. Lots of dolphins to watch and seals..."
