Reviews from Other Campers: 1) The following excerpts are from a campground description found in the "U.S. National Forest Campground Guide" web site (<http://www.forestcamping.com/index.htm>) : "...The campground is comprised of a small loop near Ellery Lake. Every camp site has a view of surrounding peaks but not the lake. Access to lake is behind camp site #14, over a hill. Willow shrubs provide a haven for mosquitoes and some privacy for camp sites. Walk-in tent sites are located along a creek. Day trips are possible to Yosemite National Park and Mono Basin Scenic Area...This is bear country; practice safe food storage techniques....All parking aprons are pretty much the same size..."
