Reviews from Other Campers: 1) The following excerpts are from a campground description found in the "U.S. National Forest Campground Guide" web site (<http://www.forestcamping.com/index.htm>) : "...The campground, one of two in the Sly Creek Recreation Area, is a single loop on the west bank of Sly Creek Reservoir in a beautiful, dense stand of mixed firs. The firs in this campground are huge, massive specimens providing a shady environment. At spring-time the lake's edge is just below campground giving campers access to the water...The parking aprons are paved...Sly Creek Reservoir is 562 acres. The boat ramp is on west side of reservoir. There is also a ramp for carry-down purposes 0.8 miles from campground..."
