Reviews from Other Campers: 1) The following excerpts are from a campground description found in the "U.S. National Forest Campground Guide" web site (<http://www.forestcamping.com/index.htm>) : "...The campground, located near the Flat Tops Wilderness, is very scenic. It is composed of three overlapping loops in dense stand of Engelmann spruce, Subalpine fir and a few Aspens providing excellent privacy between sites. Bear Lake is adjacent to the campground, but none of the camping sites are on the lake. Some of the sites have excellent views of the towering black cliffs that identify the wilderness boundary...The parking aprons are dirt...Bear Lake is 30 acres..."
