Reviews from Other Campers: 1) The following excerpts are from a campground description found in the "U.S. National Forest Campground Guide" web site (<http://www.forestcamping.com/index.htm>) : "....The campground stretches around half of Lost Lake among spruce trees and wildflowers. Some sites have view of lake with Beckwith Mountains in the background. This is a very pretty little campground; well worth the drive...The parking aprons are gravel. Interior road is narrow and rough...Lost Lake is 10 acres..." 2)The following review is from **About.Com Campground Reviews** web site (<http://camping.about.com/od/campgroundreviews/>): "Lost Lake is a very quiet and beautiful campground. There are not many sites, and they cannot be reserved. However, the sites are spaced apart very well, and the lake and mountain views are incredible. Around the lake there are many hiking and biking trails, which lead to a small waterfall on the other side of the lake. The downside is that this campground is 12 miles west of Crested Butte including 2 miles on a small dirt road."
