**Reviews from Other Campers:** 1) The following excerpts are from a campground description found in the "U.S. National Forest Campground Guide" web site (<http://www.forestcamping.com/index.htm>) : "...The campground borders the Spring Creek Reservoir among mixed conifers and appears to be popular for the family and angler. Some sites overlook the reservoir and all are well shaded. Camping sites 6 through 9 are on a dead end next to dam with no turn around. The campground name means "fly," but those seen were only around the dumpster...The parking aprons are gravel..."
