**Reviews from Other Campers:** 1) The following excerpts are from a campground description found in the "U.S. National Forest Campground Guide" web site (<http://www.forestcamping.com/index.htm>) : "...The campground is adjacent to Selway Wild and Scenic River with some sites overlooking the river. Most sites are nestled among "near-tropical" vegetation and old magnificent Cedars. There are also some interesting Yew trees with needles like Douglas Fir, but with red berries. The bark from this tree was used to produce a medication for treating breast cancer; now, it is made synthetically...The parking aprons are paved....Selway River is a popular float river..."
