

Pine Flats

Boise N. F.

Beautiful View: Mature Evergreen Forest

Campground is in a ponderosa pine forest on the South Fork Payette River. There is a hot spring on the shore of the river a short walking distance from the campground. **Best Sites:** Most camp sites are well spaced with views of a mature Ponderosa pine forest. **** See notes in the Introduction.**

Reviews from Other Campers: 1) The following excerpts are from a campground description found in the "U.S. National Forest Campground Guide" web site (<http://www.forestcamping.com/index.htm>) : "... The campground is a large single loop stretching through a stand of large, mature Ponderosa pine on a bluff well above the South Fork of Payette River. Although there is no understory or middlestory, most camp sites are well spaced and provide fair privacy. While at the campground, take a towel and hike down to the hot springs west of the campground on the shore of the river. The hot springs are not only great to soak in but also to photograph. The campground is a good transient, overnight stop but because of its tranquil setting, hot springs and wildlife viewing (bald eagles in particular), it's great for more than one night too...This is bear country; practice safe food storage techniques...The parking aprons are paved..."
