Reviews from Other Campers: 1) The following excerpts are from a campground description found in the "U.S. National Forest Campground Guide" web site (<http://www.forestcamping.com/index.htm>) : "...The campground is pack it in, pack it out [whatever you take in, you take out - garbage, etc.]. It is scenic with sites arranged on a bluff overlooking the Hungry Horse Reservoir and Emery Bay. The campground is wooded with a variety of conifers. The understory is thick with grass, young conifers and wild flowers. Some sites have bear-proof food containers...This is Grizzly bear country; practice safe food storage techniques...The parking aprons are grassy and gravel...Hungry Horse Reservoir is 23,750 acres..."
