Reviews from Other Campers: 1) The following excerpts are from a campground description found in the "U.S. National Forest Campground Guide" web site (<http://www.forestcamping.com/index.htm>) : "...The campground is composed of two sections. One section is equestrian oriented with trail head. The other is for RVs and tents. The equestrian section is more open, has long parking aprons and corrals at most sites. The RV and tent section stretches out across an Aspen encircled mountain meadow with a spectacular view of the Pecos Wilderness and snow-capped Round Mountain. There are double occupancy sites but with only one grille. Wildlife visiting the campground include coyote, elk and deer. Wild flowers such as iris, raspberry, wild roses and paintbrush are abundant. Although Aspen is the dominant tree, Spruce and Ponderosa pine are plentiful...The parking aprons are gravel..."
