		Reservations:	Not available		
		Rate/max stay (days):	\$16/14		

Reviews from Other Campers: 1) The following excerpts are from a campground description found in the "U.S. National Forest Campground Guide" web site (<http://www.forestcamping.com/index.htm>) : "...The campground, on the north shore of Fish Lake, has three unnamed sections. Two sections have combined sites and the other tent-only camping. The section with the combined sites is comprised of two loops with some campsites having a view of the lake. Although the vegetation is heavy throughout, the campground has a trimmed appearance. Conifers, including pine and fir, provide ample shade. The nearby Fish Lake Resort offers a cook's night out and boat rentals. Fish Lake is used for irrigation meaning its level will decrease as summer progresses. Also, it is surrounded by three dormant volcanos; Brown Mtn., just across the lake, is one. Firewood is available for a fee...The parking aprons are paved. Grey water disposal units are scattered throughout campground....Fish Lake is 483 acres. Power boats are limited to 10mph..."
