Reviews from Other Campers: 1) The following excerpts are from a campground description found in the "U.S. National Forest Campground Guide" web site (<http://www.forestcamping.com/index.htm>) : "...There are three loops to the campground with walk-in tent sites in the overflow area and other locations throughout the campground. The Lakeview loop sites have excellent views of the lake, but the parking aprons are quite short. The electric hookups are located only in the Dogwood loop. The ruins from the Central Coal and Coke Company (4-C) sawmill are visible in the overflow area. The mill operated from 1902 through 1920. There is a concession-operated snack bar, convenience store and boat rental (canoes and paddle boats). The concession operates from mid-March through Labor Day. Finally, there is a cassette-guided auto tour around the recreation area. The cassette is available from the information booth at the entrance to campground and the Davy Crockett District Ranger Office...There are some dirt, some paved parking aprons. Some parking aprons showing signs of erosion..."

Texas
